Opções de exportação
Desduplicar imagens consiste em procurar em todo projeto por imagens idênticas e remover as duplicatas. Isto ajuda a economizar memória e a diminuir o tamanho do download.
Desduplicar imagens
Recompactar imagens pode demorar, mas pode reduzir significativamente o tamanho de download do objeto exportado.
Recompactar imagens
Minificar o script torna o projeto exportado mais difícil de descompilar, porém mais rápido para iniciar.
Modo minificado:
Nenhum

Template repository
Template repositories let users generate new repositories with the same directory structure and files. Learn more.

Require contributors to sign off on web-based commits
Enabling this setting will require contributors to sign off on commits made through GitHub's web interface. Signing off is a way for contributors to affirm that their commit complies with the repository's terms, commonly the Developer Certificate of Origin (DCO). Learn more about signing off on commits.

Social preview

Upload an image to customize your repository's social media preview.

Images should be at least 640×320px (1280×640px for best display).
